

DISCOUNTS: A 5% discount will be performed when you sign up for 5 or more schemes within the same subprogram in a single registration. Autoimmunity, histocompatibility and immunochemistry serum samples are sent by certified mail with return receipt except for the IQ6, IQ8 and IQ17 schemes, which are frozen. Samples containing cells (HLA and IC), extra-peninsular shipments and Portugal are sent by courier at no additional charge. International extra-peninsular shipments are subject to the courier-provided prices.
